SEASIDE AND MARINA EARLY CARE AND EDUCATION
HACK ATHON

IN MONTEREY COUNTY:

There are **4** children (age 0–5) for every **1** licensed child care slot.

Families spend **27%** of their incomes on child care.

Only **25%** of children are ready for kindergarten.

Join us for a community problem-solving hackathon with a focus on child care availability in Seaside and Marina.

We will develop actionable strategies that:

- Increase the number of licensed slots.
- Support the preschool workforce.
- Support families.
- Build capacity of local informal child care providers.
- Raise awareness of needs and help advocate for change.

Who should attend?
Employers, child care providers, parents, policy makers, developers, educators, & funders.
